RubberBond in Northern Ireland

Mourne Maintenance from Kilkeel in Co. Down who are supplied by our RubberBond FleeceBack EPDM distributor in Northern Ireland, BSI Ltd.

This roof, besides from the dramatic view shows the simple, smooth & clean finish that can be achieved by using trained roofing installers.

This father and son team whose work comes mainly by word of mouth from the reputation they have built over the years. This flat roof has numerous box gutters and awkward detailing in it.

Around the perimeter of the main flat area, a lower roof area with box gutter detail has been seamlessly installed. The ability of the FleeceBack EPDM to bend and form through angles with no need for base tie ins, joins or seams in the waterproofing systems.

These pictures show the roof during installation prior to the cover flashings in wall chases, perimeter trims being installed and a suitable finish to the walls.

Installing a skylight into the roof is a great way of introducing more light into your room. RubberBond is able to be bonded and seamed to a variety of skylights and upstand types.

The amount of angle changes and box gutters in this roof are all easily dealt with by RubberBond EPDM and the skills of Mourne Maintenance.

Rubberbond is their main priority but they also carry out all kinds of building and joinery w Rubberbond is our main priority but they also carry out all kinds of building and joinery work.
